SUMMARY

Full Stack Developer specializing in (MongoDB, Express.js, React.js, Node.js), hands-on experience in building responsive web applications with dynamic content management and RESTful APIs for real clients. Proficient in building scalable frontend architectures, integrating API's, Git version control and Agile development practices.

EDUCATION

Master of Computer Applications (MCA) – Pursuing (2024 – Expected August 2026)
Ramnath Guljarilal Kedia College of Commerce — Informatics

Bachelor of Computer Applications (BCA) – 2021 – 2024
Omega Degree College — Informatics
CGPA: **8.9**

SKILLS

Programming Languages: JavaScript (ES6+)

Frontend Technologies: HTML5, CSS3, React.js, Bootstrap, Material UI

Backend Technologies: Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code

Concepts: RESTful API Development, CRUD Operations, MVC Architecture, Authentication & Authorization, Responsive Design, API Integration, Agile Methodology

TECHNICAL PROJECT

AI-Powered Job Portal Platform (MERN + GenAI Integration) - March 2026

- Developed a full-stack AI-based job platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented secure authentication and authorization using JWT and protected routes.
- Designed RESTful APIs to handle user management, job postings, applications, and profile data.
- Built AI-powered resume analysis and job recommendation features using external AI APIs.
- Implemented CRUD operations for job listings, applications, and user dashboards.
- Created a role-based access system for recruiters and job seekers.
- Designed scalable MongoDB schemas for handling large datasets efficiently.
- Integrated responsive UI components using Material UI for improved user experience.
- Applied API error handling, input validation, and secure backend architecture.
- Managed version control using Git and followed Agile development practices.

FREELANCE EXPERIENCE

Sapthagiri Enterprises – Business Website - July 2025

- Developed a responsive business website using React.js and Material UI based on client requirements.
- Designed a modern UI using Material UI, resulting in a 20% increase in user session duration and improved mobile responsiveness.
- Implemented functional contact form with validation and email handling.
- Delivered project within deadline and ensured cross-device compatibility.

Educare EM School – School Website - Sept 2024

- Built a responsive website using HTML, CSS, and JavaScript for a real client.
- Developed a CMS-based image management system allowing the client to update website images without coding.
- Implemented dynamic image upload functionality with structured content handling.
- Integrated inquiry contact form for communication management.

DECLARATION

Actively seeking Full Stack Developer opportunities where I can contribute to building scalable and AI-driven web applications.
